

21st Annual
Gala

WASHINGTON NATIONAL CATHEDRAL

OCTOBER 21, 2021

Thank you to Our *Gold* Sponsors

Welcome to the 21st ANNUAL Zero Injury Safety Awards®

Gala

Welcome to the 21st Annual Zero Injury Safety Awards® Gala.

The National Maintenance Agreements Policy Committee, Inc. (NMAPC) is proud to present the most prestigious safety award in the construction and maintenance industry to an elite group of union contractors, labor representatives and customers.

Tonight, we honor more than 27 million injury-free work-hours—a direct result of the tripartite governance and collaboration found within our industry, and the commitment to sending our craft workers home safely each and every day. Congratulations to all who have contributed to this special achievement.

MICHAEL PLEASANT
Labor Co-Chair & President
NMAPC, Inc.

ROBERT HOOVER
Management Co-Chair & Vice President
NMAPC, Inc.

DANIEL HOGAN
Impartial Secretary/CEO
NMAPC, Inc.

NMAPC Zero Injury Safety Awards® Requirements

1. The contractor must have a written company safety program that includes a management commitment to the Zero Injury philosophy.
2. All work hours submitted must have been worked under the terms of the National Maintenance Agreements or National Power Generation Maintenance Agreements only.
3. Work hours submitted must be comprised of at least 80% direct hire craft hours on a single NMAPC project for an identified owner.
4. An award is given to recognize injury-free work from the previous calendar year (ex: January 1, 2020-December 31, 2020), or multiple years beginning with January 1, 2000, as long as the Agreements are in effect and the scope of work or project is or remains under the National Maintenance Agreements or National Power Generation Maintenance Agreements.
5. Eligible projects must have zero OSHA recordable injuries. Projects with fatalities, days away, restricted or transferred (DART) cases or OSHA recordable injuries are not eligible.
6. If you are submitting an application for more than one project, you must complete an application for each individual project.

Gold Star:

Recognizing 1,000,000 hours or more worked with zero recordable injuries.

Silver Star:

Recognizing 500,000 to 999,999 hours worked with zero recordable injuries.

Bronze Star:

Recognizing 200,000 to 499,999 hours worked with zero recordable injuries.

Certificate of Merit:

Recognizing 50,000 to 199,999 hours worked with zero recordable injuries.

A photograph of the interior of the Washington National Cathedral. The image shows a long, dimly lit nave with high vaulted ceilings and large columns. In the foreground, a polished floor reflects the warm light from ornate chandeliers hanging from the ceiling. In the background, the altar area is visible, featuring a large, intricate Gothic-style altar screen with many statues. The overall atmosphere is solemn and majestic.

Welcome to the Washington National Cathedral

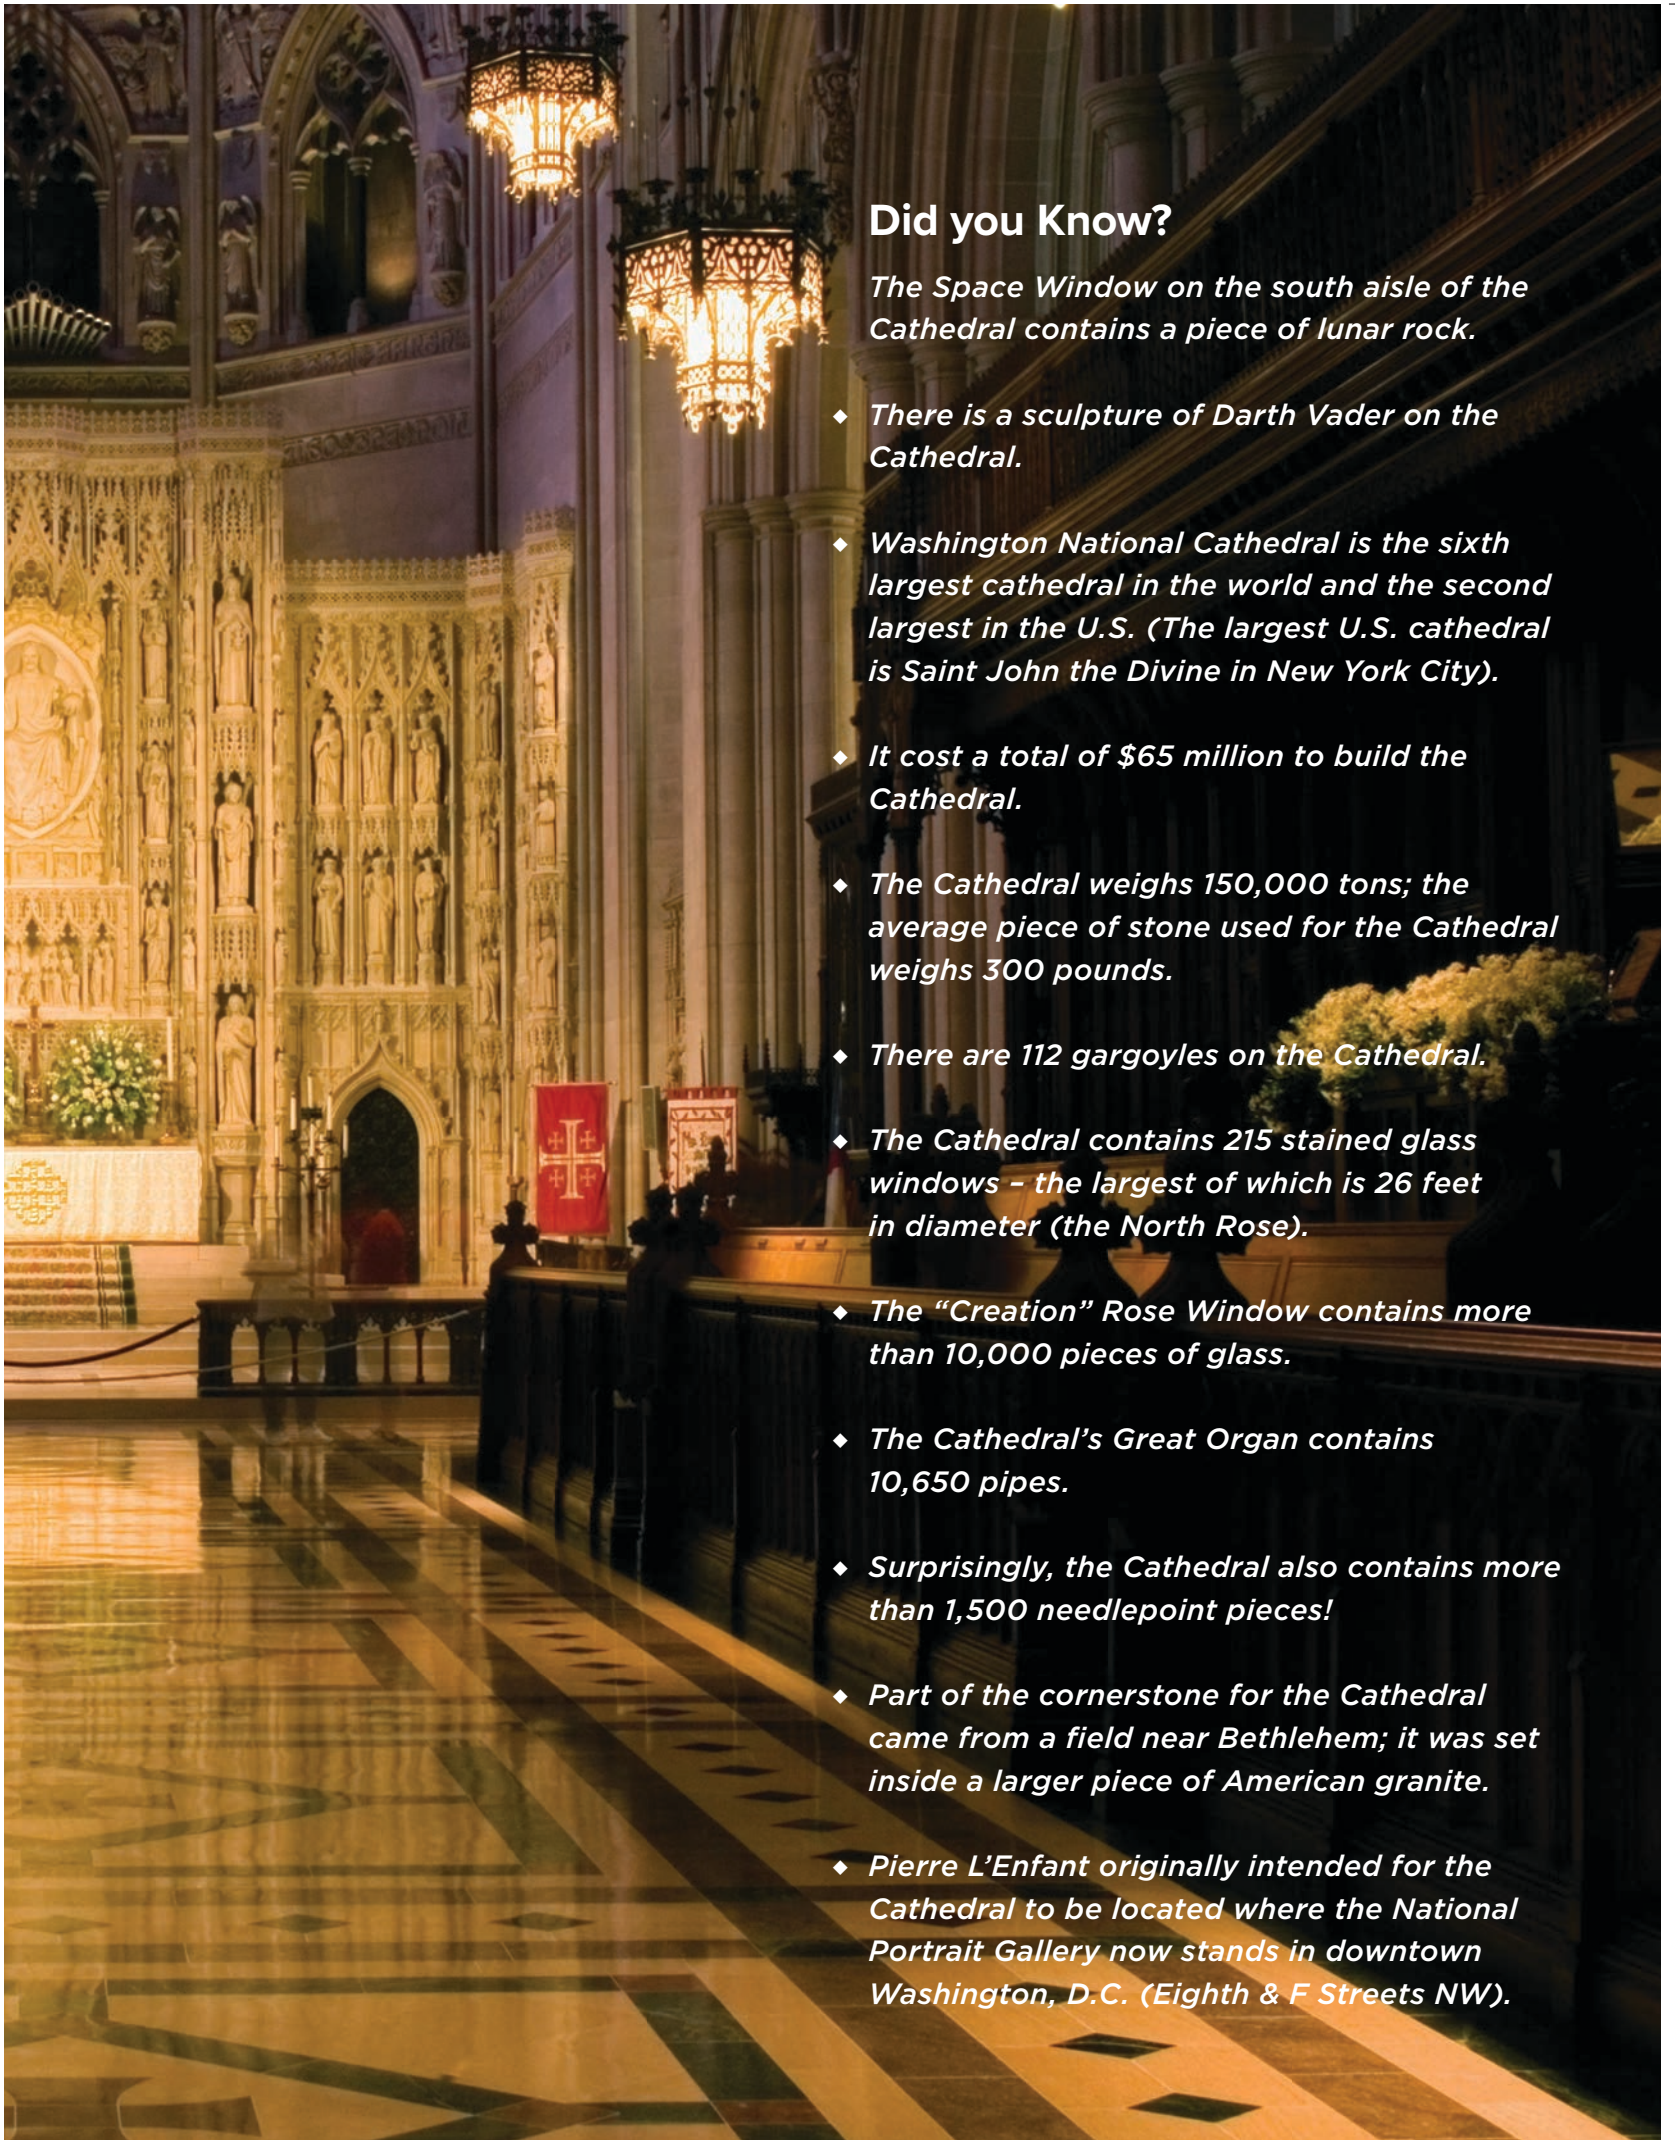

About This Evening's Venue

Tonight, we gather at the Washington National Cathedral to honor construction projects completed with zero injuries. Some of these projects were finished in weeks or months, while others are still underway. But did you know the Cathedral itself was one of the longest and most complex construction projects in Washington, D.C. history?

In 1791, President George Washington commissioned Major Pierre L'Enfant to create an architectural plan for the nation's capital. L'Enfant set aside land for "a great church for national purposes". But it took nearly two centuries for L'Enfant's vision to be fully completed! In 1893, more than 100 years after L'Enfant first unveiled his plans, the Protestant Episcopal Cathedral Foundation of the District of Columbia was granted a charter by Congress to establish the cathedral. In 1898, the site for the Cathedral on Mount Saint Alban was chosen.

On Sept. 29, 1907, while President Theodore Roosevelt looked on, workmen laid the foundation stone for the cathedral, and construction officially began. In 1912, the Bethlehem Chapel opened for services while work on the Cathedral continued.

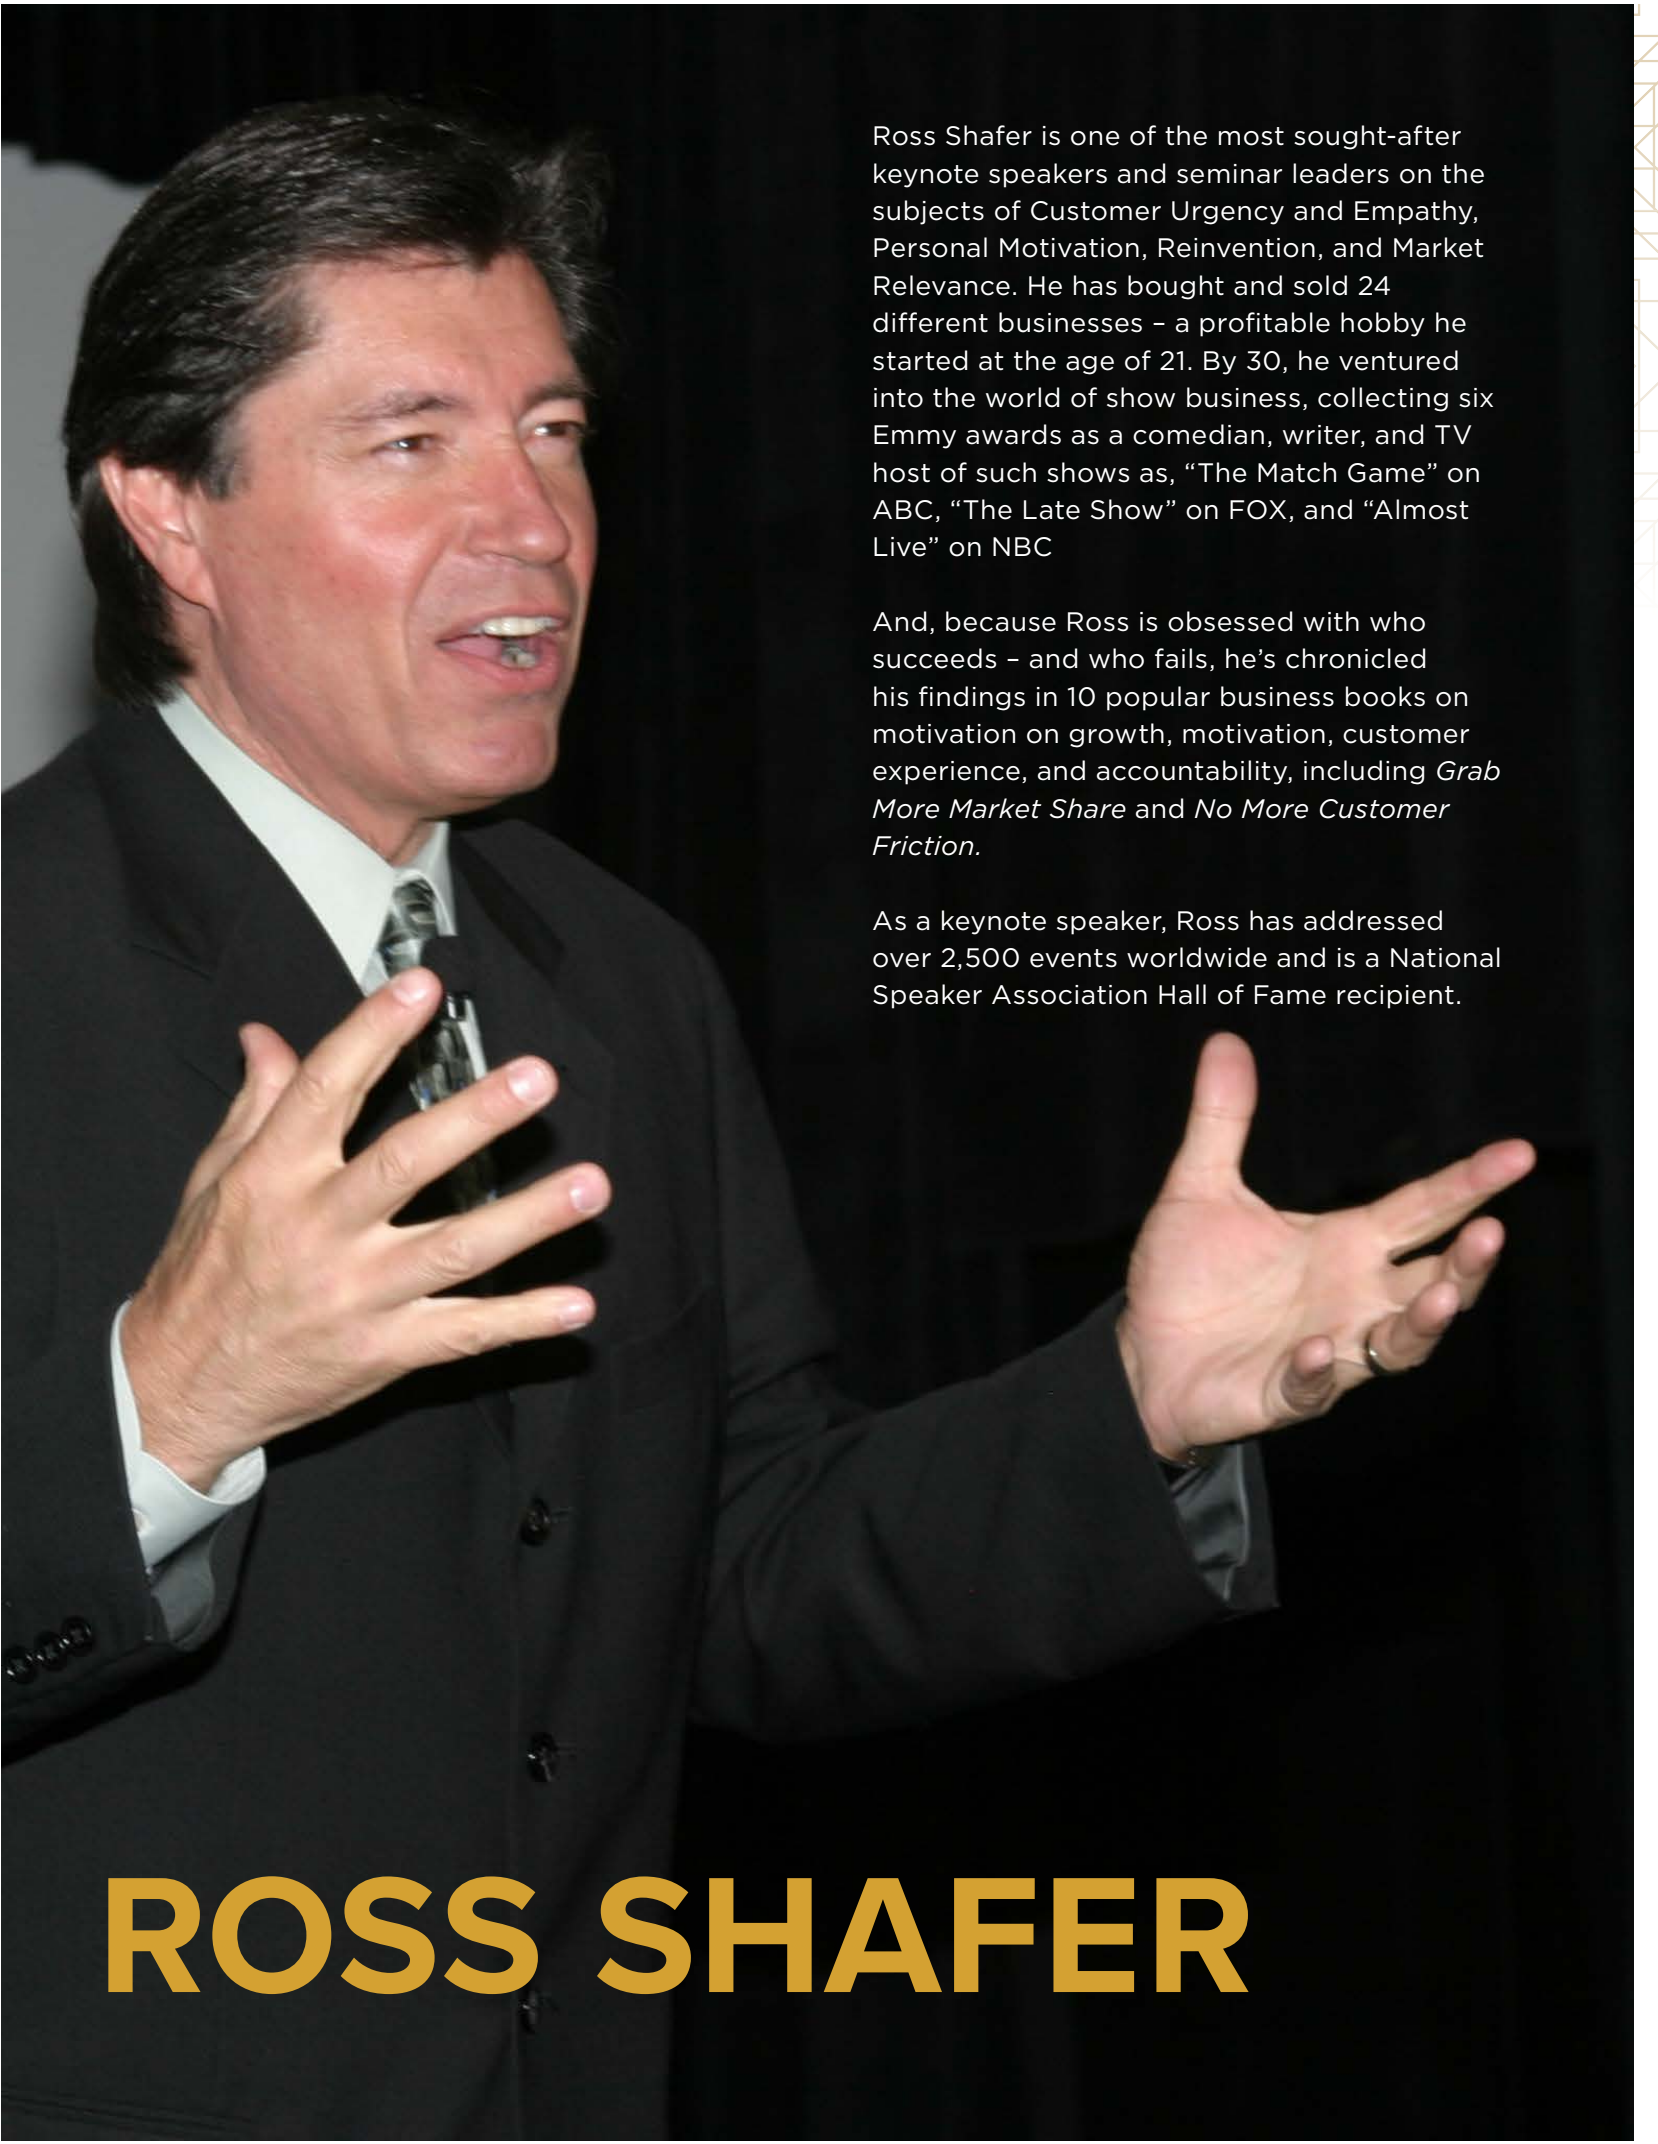

Finally, on Sept. 29, 1990—83 years to the day after construction began—the final decorative stone was lowered into place. President George H.W. Bush attended the event.

Did you Know?

The Space Window on the south aisle of the Cathedral contains a piece of lunar rock.

- ◆ *There is a sculpture of Darth Vader on the Cathedral.*
- ◆ *Washington National Cathedral is the sixth largest cathedral in the world and the second largest in the U.S. (The largest U.S. cathedral is Saint John the Divine in New York City).*
- ◆ *It cost a total of \$65 million to build the Cathedral.*
- ◆ *The Cathedral weighs 150,000 tons; the average piece of stone used for the Cathedral weighs 300 pounds.*
- ◆ *There are 112 gargoyles on the Cathedral.*
- ◆ *The Cathedral contains 215 stained glass windows - the largest of which is 26 feet in diameter (the North Rose).*
- ◆ *The "Creation" Rose Window contains more than 10,000 pieces of glass.*
- ◆ *The Cathedral's Great Organ contains 10,650 pipes.*
- ◆ *Surprisingly, the Cathedral also contains more than 1,500 needlepoint pieces!*
- ◆ *Part of the cornerstone for the Cathedral came from a field near Bethlehem; it was set inside a larger piece of American granite.*
- ◆ *Pierre L'Enfant originally intended for the Cathedral to be located where the National Portrait Gallery now stands in downtown Washington, D.C. (Eighth & F Streets NW).*

A photograph of Ross Shafer, a man with dark hair, wearing a dark suit, white shirt, and patterned tie. He is speaking and gesturing with both hands raised, palms facing forward. The background is dark and out of focus.

Ross Shafer is one of the most sought-after keynote speakers and seminar leaders on the subjects of Customer Urgency and Empathy, Personal Motivation, Reinvention, and Market Relevance. He has bought and sold 24 different businesses – a profitable hobby he started at the age of 21. By 30, he ventured into the world of show business, collecting six Emmy awards as a comedian, writer, and TV host of such shows as, “The Match Game” on ABC, “The Late Show” on FOX, and “Almost Live” on NBC

And, because Ross is obsessed with who succeeds – and who fails, he’s chronicled his findings in 10 popular business books on motivation on growth, motivation, customer experience, and accountability, including *Grab More Market Share* and *No More Customer Friction*.

As a keynote speaker, Ross has addressed over 2,500 events worldwide and is a National Speaker Association Hall of Fame recipient.
