MORE THAN AN EVENT

TAUC has the unprecedented ability to assemble a premier group of stakeholders to foster the adoption of innovation.

Industrial Grade Innovation is more than just an event:

TAUC's Innovation and Technology Committee serves as an advisor to the IGI Expo as well as other initiatives throughout the year to drive the adoption of innovation.

TAUC Innovation and Technology Committee

IT & Innovation Director Chief Service Director Atlantic Plant Maintenance

Virtual Design & Construction Director Barton Malow Company

Vice President of Business Development Enerfab Power & Industrial, Inc.

Operations Manager Superior Construction Company, Inc.

Manager of Engineering Bruce & Merrilees Electric Company

Chief Technology Officer Alberici Constructors

Director Technology Optimization Walbridge Aldinger Company

Project Manager Virtual Design Manager BMWC Constructors, Inc.

Construction Project Manager Burns & McDonnell Engineering Co., Inc. VP of Corporate Information BHI Energy I Specialty Services LLC

AP Dearborn Mid-West Company

HR Generalist Babcock & Wilcox Construction Co., LLC

Director of PreConstruction, Technical Services & Fabrication McCarl's Inc.

Director of Information Technology Kalkreuth Roofing & Sheet Metal, Inc.

Senior Project Manager Nooter Construction Co.

Director of Estimating NAES Power Contractors

Manager of Labor Relations - UA Pipefitters C.R. Meyer and Sons Company

Assistant Project Manager Aristeo Construction

WHY SPONSOR

WHO IS THE ASSOCIATION OF UNION CONSTRUCTORS

TAUC member companies perform billions of dollars of construction and maintenance work annually throughout the United States. Our contractors are relied upon in numerous industries, including automotive, chemical, food & pharmaceutical, petrochemical and natural gas, steel, utility, and wood/paper.

ONE VISION: TRIPARTITE COOPERATION

The Association of Union Constructors (TAUC) is dedicated to bringing the three entities involved in the successful completion of construction projects together, and all three will be active participants in IGI along with innovation and technology firms and subject matter experts. In order for new innovation and technology to make an impact on the union construction and maintenance sector, buy-in from all three is critical.

WHY IS IGI UNIQUE?

INDUSTRIAL GRADE INNOVATION (IGI) MISSION

To be a catalyst for the adoption of technology & innovation within the industrial construction & maintenance industry in order to improve productivity, safety, and project delivery.

TAUC has the unprecedented ability to assemble a premier group of stakeholders to foster the adoption of innovation.

IGI's goal is to make it easy -safe - cost effective to work with member contractors and its affiliated organizations to drive the adoption of construction technology.

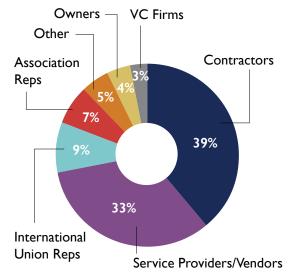

2019 IGI RECAP

308 attendees	93% overall attendee satisfaction with IGI	42 exhibitors
36 companies that attended the Speed Networking Session	9 venture capital firms attending	\$20,000 the amount the winner, M-Suite, took home for winning the IGI Start-Up Challenge

Thank You to All Our 2019 Sponsors

2019 IGI RECAP

BRAD KEYWELL, CEO OF UPTAKE TECHN ON THE POWER OF H "We are obsessed with what can be known based upon all that has happened. We are interested, highly, in the precision that's available from every possible inquiry so that you can take action based upon what you know. And what you know can be captured, recorded, understood, organized, even before a human being is being called on to act."

About TAUC

The Voice for Union Construction and Maintenance

Located across the Potomac River from Washington, D.C.'s corridors of power, The Association of Union Constructors (TAUC) occupies a unique space in the nation's capital as the premier national trade association for the union construction and maintenance industry.

TAUC is made up of more than 2,000 contractor companies that utilize union labor for their projects, as well as local contractor associations and vendors in the industrial maintenance and construction fields.

Our Mission

TAUC's mission is to act as an advocate for union contractors and enhance cooperation between the three entities involved in the successful completion of construction and maintenance projects: the union, the contractor and the owner-client, the company for which the work is being completed. By encouraging this "tripartite dialogue," many potential issues and delays are eliminated before work even begins.

We strive to demonstrate that union construction is the best option because it is safer and more productive, and also provides a higher-quality and cost-competitive product. We aim to enhance labor-management cooperation, workplace safety and health and collaboration among construction users with the greater goal of making union contractors more competitive in the marketplace.

Adaptation in the 21st Century

Founded in 1969 under the auspices of the National Erectors Association, the organization originally served as the voice for union steel erector companies. Over the years, however, the need became apparent for a single national organization to represent all industrial maintenance and construction companies that realize the value of the union workforce, and soon other non-steel erection contractors would join up as well. In recognition of this newfound diversity, in 2007 the association changed its name to The Association of Union Constructors.
