Re: NMAPC.org NMA Termination Process Upgrades

Over the last few months, the NMAPC office has been working with our database/website company to enhance the NMAPC.org website as directed by the NMAPC Labor-Management Committee. As a result of these enhancements, there will no longer be an option to approve or deny **NMA/NPGMA** Termination Notices. Terminations will take effect 90-days following submission, as outlined in **NMA Article XXIX – Duration of Agreement**. The NMAPC administrative office will retain the ability to put terminations on hold for a specific time period, approve them with immediate effect, or to cancel the termination.

The newly upgraded NMA Termination buttons on your landing page on NMAPC.org have the following actions:

- **“Terminate Agreements”**
This button allows Contractors to submit a NMA notice of termination for a specific signatory unions’ agreement, which will be effective in 90 days.
- **“Termination Status”**
Allows users to view all pending and completed NMA termination notices. You can also view and print notices from this page.

If you have questions or need assistance related to these upgraded features please contact the NMAPC Administrative office at (703) 841-9707 or info@nmapc.org
